

# Natural Pest Control

Swiss Quality & Design  
Natural Baits - No toxic chemicals  
Amazingly Effective

## SUCCESS BY INNOVATION

Dynamic, young, creative and experienced, the SWISSINNO SOLUTIONS Team sees its mission as successfully developing and marketing innovative products. Suggestions and ideas are continuously gathered and conceptually integrated into marketable natural pest control products.

Since 1999 international consumers have trusted in our products and we have constantly expanded our distribution network with leading commercial partners throughout Europe. We are committed to creating functional design with the most modern methods, to mass-producing to the highest Swiss quality standards and to selling our products in the DIY, garden and household markets.

## Mouse Trap and Rat Trap

*Natural bait: No toxic chemicals!*

- **Baited ready to use** - the bait is a natural non-toxic product and is highly attractive to mice and rats.
- **Extraordinarily high catch rates** - thousands of consumers tell of huge numbers caught in very short times.
- **Swiss designs with powerful spring mechanisms.**
- **Hygienic no-touch disposal of dead rodent.**
- **The Mousetrap is child-safe** - the snap-shut jaws will kill mice, but not harm children, or pets.
- **For use indoors and outdoors.**
- **Ideal for domestic and commercial use** - for factories, offices, farms, orchards and plantations.
- **Replacement baits available.**

## FSC Wood Mouse Trap

With patented safe-setting device!

- **The body of the trap is made of Forestry Stewardship Council certified wood** - The FSC logo assures consumers that the wood comes only from carefully managed forests.
- **The patented device makes the trap extraordinarily easy and safe to set** - Eliminates completely the tricky (and often dangerous) fumbling that setting ordinary wood traps can entail.
- **Unique Swiss design with powerful spring mechanism for optimum impact and instant humane killing.**
- **Specially shaped bait-holder to facilitate the use of all types of baits, cheese, bacon, chocolate, etc..**
- **The bait-holder is positioned centrally to the semi-circular bar** so the mouse is struck with the optimum impact no matter from which direction it enters.
- **For use indoors and outdoors.**

## “Catch Alive” Mouse Trap

New - Unique - Patented!

- **Natural bait** - no toxic chemicals.
- **100% Effective** - exclusive patented design prevents the trap from closing until the mouse has entered the trap.
- **Supplied complete with three bait capsules** - the bait is a natural non-toxic product and is highly attractive to mice.
- **Simple press-button operation.**
- **Hygienic, no-touch mouse release.**
- **No springs or snap-shut jaws** - safe for children and pets.
- **For use indoors and outdoors.**
- **Replacement bait capsules available.**

## Vole Trap\* & Solar Rodent Repeller

\*New - Unique - Worldwide Patented!

#### Vole Trap

- **Simple single-action setting in seconds** - pull the sprung clamp-unit handle out to its limit, and the trap is set. Supersedes the complicated spring arrangements that are found in other traps.
- **Requires no great strength to operate** - unlike other traps which need above-average strength to stretch their springs.
- **Fits neatly into a 6-cm diameter hole** - does not need the extensive excavations that other traps require.
- **Gives a clear above-ground visual signal when the trap has been activated** - the handle drops back into the trap.
- **Catches voles in both directions.**

## Clothes Moth & Food Moth Trap

### No toxic chemicals!

- Provides early detection of clothes moth and food moth infestation.
- Baited ready to use.
- The sexually alluring pheromone attracts male moths into the trap where they stick to the adhesive surfaces and die.
- Moths can enter from all four sides so capture rate is high.
- Trapped moths are hidden out of sight.
- Ready for use straight from the pack: no assembly required.
- Compact and space-saving.
- With self-adhesive fixing pad.

## Window Fly Trap & Fly Swatter

No toxic chemicals!

### Window Fly Trap

- **Traps flies on its adhesive inner surfaces** - attracted to the light, flies settle on window panes where they gravitate towards the corners, enter the trap and are caught by the glue, and die.
- Tests show that within 48 hours of placing these window traps, virtually all the flies in a room will enter the traps and be caught.
- Trapped flies are hidden out of sight.
- With self-adhesive fixing pads.

## Mosquito Stop & Insect Destroyer

### Long-lasting outdoor protection

#### Insect Destroyer Rechargeable

- Ultraviolet light attracts flies, moths, mosquitos & midges onto an electrically charged metal grid **(1)** where they die instantly.
- Dead insects fall into the base tray **(2)** which is easily removed for cleaning and maintenance.
- The ultraviolet light and the electrically charged metal grid are safe for humans and pets.

#### Mosquito Stop

- **NATURAL CONTROL Mosquito STOP** is a powerful insect repellent derived from plants of the Alliaceae family. A single application to an outdoor area will repel mosquitoes for up to 2 weeks.
- The bottle of 500ml concentrate is enough to spray an area of about 1,250 sq m.
